Made in the USA  
Precious Metal Plating

## Picture Perfect Template

This easy-to-use stencil helps you zero in and perfectly crop your favorite pictures. Unleash your imagination and use paper, objects, textiles -- *it's fun and creative!*

*Game pieces*

*Buttons*

*An old book*

*Vintage photos*

94-2258  
**Hammertone**  
1/2" (Fits 12mm)

94-2259  
**Bead**  
1/2" (Fits 12mm)

94-2260  
**Simple**  
1/2" (Fits 12mm)

94-2256  
**Scalloped Oval**  
1/2" x 11/16" (Fits 12mm x 16mm)

94-2257  
**Large Flower**  
1/2" (Fits 12mm)

94-2254  
**Small Flower**  
3/8" (Fits 8mm)

# Tips for Picture Perfect Frames

## Choosing images for your frames:

If applying a glaze, use images printed with non water-soluble inks. Images printed with regular ink-jet ink will bleed. Place cropped images in frame with small amount of adhesive and allow to dry.

## Glaze and adhesive recommendations:

We tried a few different products, and had good results with *Judi-kins Diamond Glaze* dimensional adhesive and *Aleene's Paper Glaze*.

## Avoiding Bubbles:

Before applying glazes/adhesives, squeeze a bit through the tip to release air bubbles from the nozzle. Don't shake the bottle. Should bubbles occur, use a small dry paint brush to carefully pop them. Once the glaze starts to set, bubbles are harder to remove.

## Be patient:

Let the glaze dry thoroughly before handling your picture frames. You won't be sorry.

## Have fun:

We played with lots of different materials in the frames. Photos, playing cards, postage stamps, buttons, stones, crystals and, of course, beads. The creative options are endless!
