**Additional Materials:**

- Ferido Jewelry Making Adhesive (Blue Zircon shown)
- Swarovski 2.2mm flatback rhinestones in assorted colors
- Swarovski 8mm Helix bead in Crystal AB (5020)

# Holiday Sparkle Earrings

*Add holiday dazzle with these sparkling ornaments!*

DESIGN BY Tracy Gonzales (for TierraCast<sup>®</sup>)

**Instructions:**

**• Create elements:**

**Ornament** - Follow the Ferido instructions to prepare a small ball about 8mm in diameter. Press the ball into a 12mm Beaded Round Charm and mold the top into a smooth, round shape. Use the tweezers to place a flatback rhinestone at the center of the Ferido ball, pressing it down lightly. Continue to place rhinestones onto the ball until the surface is covered, using a light touch, and molding the ball back into shape as necessary. Repeat with the second 12mm Beaded Round Charm. Once the surfaces are covered allow the Ferido to dry 1 to 2 hours.

**Helix Dangle** - String one 4mm Beaded Cap on an eyepin, followed by one 8mm Helix, and a second 4mm Beaded Cap. Form a simple loop. Repeat.

**• Assemble earrings:** Attach 1 Helix dangle to an earwire. Attach 1 ornament to the other end of the Helix dangle, and repeat.

**TIP:** Start at the center of the Ferido ball and work your way out with the rhinestones. Use the tip of the exacto knife or tweezers to nudge the rhinestones as close together as possible.

**Tools:**

- Chain-nose pliers
- Round-nose pliers
- Wire cutters
- Tweezers
- Exacto knife (optional – to remove rhinestones for repositioning)
