

TierraCast For Infinity Bracelet

Simple, Stackable Style

Design by: Tracy Gonzales

skill set
easy peasy

Supplies

- 1 Infinity Link (94-3178-18)
- 3 4x2 Deco Barrel Beads (94-5803-18)
- 14" 2mm round leather cord, brown

Required Tools

Scissors, flat nose pliers, crimping pliers or hammer, jeweler's cement

Finished Size

Adjustable Bracelet

Instructions

TIP: Add a small drop of glue into the knots before final tightening.

1. Cut leather into two 7" pieces.
2. Thread the end of one cord through one barrel bead, up through hole at one end of focal link, and back through barrel bead.
3. Tie an overhand knot at end of cord and tighten securely.
4. Adjust knot and bead so that they are next to the focal link.
5. Repeat Steps 2-4 with second piece of cord.
6. Thread loose ends of cords through the third barrel bead from opposite directions.
7. Tie an overhand knot at the end of each cord and tighten securely.
8. Use flat nose pliers, crimping pliers or hammer* to flatten the barrel bead just enough to lightly grip the cords and make the bracelet adjustable.

9. Optional: Repeat Step 8 to secure barrel beads in place next to the focal link.

*Each tool will create a different effect on the bead.
