Instructions

TIP: To lengthen just add more cord length and adjust placement of all beads for desired bracelet length.*

1. Fold cord in half and thread both ends through button holes. Pull all the way through until button is positioned at fold.
2. String one barrel bead onto both cords and slide to about 1/4" from button.
3. Use pliers to flatten barrel bead until secure.
4. String one barrel bead onto both cords.
5. String one 5mm spacer, one green gemstone, one 7mm spacer, one red gemstone, one 7mm spacer, one green gemstone, and one 5mm spacer onto each cord.
6. String two more barrel beads onto both cords.
7. For a 7" bracelet position last barrel bead about 5" from the first one. Double check length for fit, then use pliers to flatten as in Step 3. (*Position farther from the first bead for a longer bracelet.)
8. Arrange barrel, gemstone and spacer beads at center of bracelet as desired, then flatten barrel beads to secure focal section in place.
9. Form button loop by tying both cord ends in an overhand knot about 3/4" from last barrel bead. Tighten securely, adding a drop of adhesive if desired. Allow to dry.
10. Trim cord ends as desired.
