- Embellishment Cord

## Required Tools

2 chain nose pliers, round nose pliers, flush cutters, scissors

## Finished Size

3.75 inches

## Instructions

1. String one bead onto one head pin. At top of bead carefully bend wire over at right angle and trim to 3/8". Form simple loop.
2. Repeat Step 2 with all beads, for a total of 6 bead dangles.
3. Cut a 3" piece of craft wire. Holding one 3/4" ring next to one 5/8" ring, connect them with 3 wraps of the wire. Trim any excess wire and tuck in the ends.
4. Cut eight\* 4" pieces of embellishment cord. Fold 4 pieces in half over the larger ring and thread one barrel bead over all strands. Slide bead up to bottom of ring.
5. Cut one 4" piece of craft wire and attach a charm at one end with a wrapped loop.
6. Thread other end of wire up through barrel bead in front of tassel until charm hangs about 1/4" from bottom of bead. Bend wire end down over front of bead and secure by wrapping over existing wire wrap.
7. Trim excess wire and tuck end in.
8. Use chain nose pliers to crimp barrel bead on the embellishment cord to secure it.
9. Open the loop of one of the bead dangles and attach it to one of the wire wraps connecting the two rings. Close loop.
10. Repeat Step 9 with two more bead dangles.
11. Open one jump ring and attach it to top of 5/8" ring. Close jump ring.
12. Open one jump ring and attach it to jump ring added in Step 11. Before closing jump ring slip on an ear wire. Close jump ring.
13. Repeat Steps 3-12 for second earring.

\*Cut eight or more pieces depending on the thickness of your cord.
