

TierraCast Lazy Zig Zag Bracelet

A Meandering Weave of Cord and Beads

skill set
not too hard

Design by: Tracy Proctor

Supplies

- 1 Large Classic Hook (94-6178-40)
- 2 5mm Nugget 3 Hole Bar (94-3162-40)
- 2 6x2mm ID Barrel Bead (94-5792-40)
- 7 4x2mm ID Barrel Bead (94-5791-40)

- 8 7mm Nugget w/2mm ID (93-0450-40)
- 28" 2mm round cord (red brown leather cord shown)

Required Tools

Flat nose pliers, Scissors, Jewelry adhesive

Finished Size

Approx. 8"

Instructions

TIP: For added security, apply a bit of adhesive into the 6x2mm barrel beads before crimping, and to the knots before tightening and trimming.

- 1. Cut one 14" and two 6 ¼" pieces of cord. Align the cords next to each other with the 14" strand in the middle extending about 4" past the ends of the shorter cords.
- 2. String one 6x2mm ID Barrel bead onto the ends. Use flat nose pliers to crimp barrel bead.
- 3. Make a small loop in the 4" end. Wrap the loose end around the base of the loop once and tie an overhand knot. (Fig 1)
- 4. Tighten securely and trim excess cord. (Optional: add adhesive before tightening.)
- 5. String one 5mm Nugget 3 Hole Bar onto the 3 cords.
- 6. String one 7mm Nugget w/2mm ID bead onto center cord.
- 7. String one 4x2mm ID Barrel bead onto center and an adjacent outer cord.
- 8. Repeat steps 6–7 six times, alternating outer cords.
- 9. String a final nugget bead onto center cord.
- 10. String on the second 3 hole bar. Adjust all beads so that the 3 hole bars are about 5" apart. (Less for a smaller bracelet.)
- 11. Repeat Step 2.
- 12. Make a loop in the 4" end. Before knotting attach the small loop of a Large Classic Hook. Secure with an overhand knot as before.
- 13. Optional: Use flat nose pliers to secure 4x2mm beads into place.
