2. Use one oval jump ring to connect 2 of the links. Repeat until all 8 links are connected.
3. Attach one oval jump ring at one end of the strand of connected links. Close jump ring. Repeat at other end.
4. Cut one 6 3/4" piece of chain. Repeat 3 times.
5. Open one oval jump ring and attach the end link of one piece of chain. Attach end link of a second piece of chain to same jump ring. Close jump ring. Open a second jump ring and attach to end links at the other end.
6. Repeat Step 5.
7. Open one round jump ring and string on one chain segment, the connected link segment and the second chain segment. Close jump ring. Repeat at other end.
8. Use one round jump ring to attach clasp ring at one end of the bracelet. Repeat at other end to attach the clasp bar.
