- Super New Glue or preferred adhesive

Required Tools

Scissors, chain and/or flat nose pliers (2), large crimping pliers (optional)

Finished Size

Approx. 7 inches

Instructions (for one bracelet)

TIP: For optional crimping instead of gluing - use large crimping pliers or chain nose pliers to squeeze the cord end firmly on the recessed area until secure.

1. If using adhesive to secure cord ends, apply small drop of glue into one cord end. Insert one end of one piece of cord. Allow to dry. If crimping use chain nose or crimping pliers to crimp until secure.
2. String 11 spacer beads onto cord.
3. Repeat Step 1 to secure second cord end.
4. Open one oval jump ring and attach to loop at one end of bracelet. Before closing attach loop of one lobster clasp. Close jump ring.
5. Repeat Step 4 at other end, adding closed round jump ring before closing oval jump ring.
